

# PREPARE TO RESPOND

JCRB|AJC works to ensure that young Jews in Kansas City are informed, prepared, and effective advocates for the Jewish people and for themselves.

Here are some helpful tips and resources for combating antisemitism.

## PREPARE

Stopping antisemitism starts with understanding it. Learn more at [jcrbajc.org](http://jcrbajc.org) on our "Resources on Antisemitism and Israel" page. For resources on Holocaust education, go to [mchekc.org](http://mchekc.org).

Here are some key resources for students and families:

### Student Resources Document

Specially-curated resources, including recommended Instagram accounts, strategies for responding to antisemitism, and tips on having conversations about Israel.

### Translate Hate Glossary

AJC's guide to antisemitic terms, phrases, conspiracies, cartoons, themes, and memes. The glossary empowers you to identify, expose, and report antisemitism.

## RESPOND

We encourage students to speak up against antisemitism when they feel confident and safe, and to go to their parents or other trusted adults for support. Report online antisemitism directly to social media platforms.

For help responding to antisemitic incidents, please contact JCRB|AJC's Director of Education and Programs, Sarah Markowitz, at [sarahm@jewishkc.org](mailto:sarahm@jewishkc.org).

### Student Incident Report

Confidential form for students who have experienced or witnessed antisemitism. We will not take further action unless explicitly requested.

### Education Initiatives

Learn more about our proactive education initiatives, "Prepare to Respond, Educate to Prevent," and our work with schools and students across our region.
